AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, Whooping-Cough, CROUP, ASTHMA, AND CONSUMPTION.

Of all the numerous medicines now extant, (and some of them no doubt) for the cure of pulmonary complaints neither has ever been found which could compare in its effects with this Preparation. Others cure sometimes but it all times and in all diseases of the lungs and throat, whether acute or chronic, it is the most powerful remedy the afflicted can use. We do not pretend to the information of those who have tried it, but simply say we have no... Facts are what have known to the world, and to these we point with confidence. We defy competition. We have the evidence of the most respectable citizens, many of whom will be known to every one, that the Cherry Pectoral will cure, and has cured, cases of Croup and Colds which seemed hopeless, and which no other medicine could reach. Such a remedy is needed in every family, for the protection it affords against the dangerous consequences of Coughs and Colds which neglected, or trifled with, often fasten upon the throat and lungs the seeds of Consumption and Death.

Read the following opinion founded on the long experience of the eminent Physician of the Port and City of

ST. JOHNS, May 8, 1851.

Dr J. C. Ayer—

Five years' trial of your CHERRY PECTORAL in my practice has proved what I foresaw from its composition, must be true, that it could cure any cures the colds and coughs to which we, in this section, are peculiarly liable.

I think, in fact it has not yet been discovered, nor do I know how a better remedy can be made for the diseases of the Throat and Lungs.

J. J. BURTON, M D F. R. C.

Hear what it has done on a wasted constitution, but only in the following cases, out a thousand more to

Boston, June 24th, 1851

Mr. Ayer—In the month of July last I was attacked with a violent Cough, after my return from California. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My Diarrhœa abated, but was followed by a severe cough—and quick decline. I finally started for home, but received no relief from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once advised by my acquaintances on a visit to my relations. I must confess that I saw no sufficient reason for this visit, my friends all believed. At their request I reluctantly taking your truly invaluable medicine with little expectation of deriving any benefit from its use—I would limit receiving three bottles did I not regard it as my duty to myself to inform you, that in the space of eight months, is fully restored attribute it to the use of your Cherry Pectoral.

Yours truly, WILLIAM W. SMITH.

Washington, Pa., April 12, 1849.

Dear Sir,—Feeling that I have been spared from a premature grave, through your instrumentality by the providence of God, I will take the liberty to expose to you my gratitude.

A cough and the alarming symptoms of Consumption had so fastened me too close to leave me anything like hope, when my physician brought me a bottle of your Cherry Pectoral. It lessened my cough immediately, and in a few weeks set me fully restored me to health. If I will do for others what it has for me, you are certainly one of the benefactors of mankind.

Sincerely wishing your blessing, I am

Very respectfully yours,

JOHN F. CLARK, Rector of St. Peter's Church.

With such testimonials as these from men of character and standing, we think we are not asking too much of the afflicted when we ask them to try this remedy. We do not ask a trial of a dozen remedies at once, but of one only. We assure them that this remedy contains no poison, and that it will not, in any case, do harm. And we say to them with confidence that if this remedy will not be found to relieve their complaints, no other remedy can be found in the whole Materia Medica that will. We do not make this assertion lightly, but we have the most ample proof of the truth of what we say. We could fill this sheet with certificates of its cures, but we prefer to leave it to be tried by the sufferer, whose own judgment will be its best recommendation.

WHITE ZINC PAINT,

After two coats to harden and the Central Spring, it is hereby warranted to be equally as good as White Lead, and will not change color from the action of sulphureted hydrogen gas, and is entirely unaffected by the fumes of Sulphur, Saltpetre, Gunpowder, or Fireworks, and is not poisonous, as is well known to the public, and will not injure the most delicate person in the application of it, and is not dangerous to work with, even when ground in oil, as it does not contain any of the poisonous properties of White Lead, and will not turn black, when exposed to sulphureted hydrogen gas, as White Lead will, from 30 to 40 per cent. less oil than lead, and is, therefore, much cheaper to use, and will not settle in the paint, as White Lead does, but remains in a uniform state, and will not chalk off. As a roof paint, it will last many years longer than White Lead, and will not crack or scale off, as the sulphurous gases from the burning of coal do not injure the zinc paint. Directions for use in every package. The Zinc Paints are ground in raw oil, and reduced to the proper consistency for use by adding pure boiled linseed oil, and thinning with spirits of turpentine, or pure spirits of turpentine alone, if preferred. Directions for mixing the paints in every package.

Brown and Black Zinc Paints

in a few hours form a hard, tough, oil tight coating upon wood, brick, iron and other smooth surfaces, and are remarkable for their fire proof properties. They are specially adapted for many purposes where paint is used to resist the corrosive action of salt water, to destruction by other paints.

Greenleaf's Primary Arithmetic.

MENTAL ARITHMETIC upon the Inductive Plan, designed for Primary and Intermediate Schools. By BENJAMIN GREENLEAF, A. M., author of the "National Arithmetic," etc.—Revised and enlarged edition, 144 pp.

To render this work more complete for the class of pupils for which it is intended, the author has at the urgent solicitation of Teachers, considerably enlarged and improved it, and has appended to each case, and each system of *Written Arithmetic* for exercises (for the Slate) which the publishers trust will make it still more useful and acceptable to the public. In its present form, it is a suitable introduction not only to the next book of the series the *"Common School Arithmetic,"* but to any of the various treatises on Written Arithmetic. The Work is handsomely and thoroughly executed and is sold at a cheap rate.

The popularity of this work (intended to supersede the old Arithmetic heretofore in use,) is now used in the Public Schools in Boston, Cambridge, Salem, Lynn, Newburyport, New Bedford, Providence, and in scores of other cities in various parts of the United States.

Specimen copies furnished (gratis) to Teachers and School Directors, who are invited to examine the work.

HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 70, St. Mary's Street, Weymouth, dated May 10th, 1851.

To Professor Holloway.

SIR.—At the age of 18 my wife (who is now 61) received a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her appearance was distressing, and for months together she was entirely unfit for work and sleep. Every remedy that our local men advised was tried, but without effect; her legs still suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are perfect, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrasted them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Extract of a Letter from Mr. Wm. Abbs, Builder of Gas Works, of Ruabcliffe, near Huddersfield, dated May 31, 1851.

To Professor Holloway.

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents as Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, or, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr W. P. England, Chemist, 13, Market street, Huddersfield.

A DREADFUL BAD BREAST, CURED IN ONE MONTH.

Extract of a letter from Mr Frederick Turner, of Pensharn, Kent, dated December 13th, 1850.

To Professor Holloway.

DEAR SIR,—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff Joints	Sore-throats
Bunions	Chilblains	Skin-diseases
Bite of Moschetoes and Sand Flies	Chiego-foot	Sore-heads
Coco-Bay	Fistulas	Scurvy
Coast-Ague	Gout	Stone-head
Callositaes	Glandular Swelling	Tetterworm
Chapped hands	Lumbago	Ulcers
Chigo-foot	Rheumatism	Wounds
Chilblains	Piles	Yaws

H. BERNSTEIN, Manufacturer and Importer of all sort of *Instruments

were given for its abandonment. The little army of Scott, already beginning to reap laurels from its achievements, under its active and indomitable leader, was suddenly checked in its incipient career of conquest, and made to turn its back on the enemy. But for that pusillanimous step, Scott would doubtless have gone on triumphantly to Montreal, captured that city, and gloriously effected the conquest of all Upper Canada. Checked as he was by this ingonious termination of the enterprise he was so signally leading on, it did not operate to discourage his efforts or dishearten his spirit. He zeal remained unquenched and his fervor unabated.

With the close of the campaign, a new and important sphere of duty opened upon Colonel Scott. He had thus far been fighting battles; he was now to be called upon to awake a new army into being, whose deeds should efface the remembrance of the spiritless close of the campaign of 1813; and whose prowess should exhort the plaudits of admiring millions, and reflect back a new and brilliant radiance upon the head of its accomplished disciplinarian and commander.

WHIG NOMINATIONS.

FOR PRESIDENT,

WINFIELD SCOTT,

OF NEW JERSEY.

FOR VICE PRESIDENT,

WILLIAM A. GRAHAM,

OF NORTH CAROLINA.

FOR GOVERNOR,

William G. Crosby,

OF BELFAST.

FOR CONGRESS,

ISRAEL WASHBURN Jr.

☞ The question of a Tariff for protection is one of very deep interest to the mass of the people of the United States. This ought not to be a party question, but it is made such and as such must therefore be treated as a party question, and cannot fail to enter into the political canvass. The platform of Pierce and King is quite positive against protection, and cannot fail, therefore, to be clearly scrutinized, particularly in Pennsylvania where the memorable cheer of "Polk, Dallas, and the Tariff of '42," is not yet forgotten. The leading policy of Pennsylvania is to encourage manufactures, and to stimulate industry to the full unfolding of the rich and varied resources of the State abounding in natural wealth in herson, her mountains her rivers and water falls, her facilities for internal navigation, and all the elements that can make a State great and prosperous.

The city of Philadelphia and its adjacent liberties, Spring Garden, Moyamensing, Kensington, Darby, Frankfort, &c., present a very active picture of what is and must be the policy of the State. Philadelphia, itself, which we have been accustomed to consider as an old, staid, gouty, drab colored city of slow moving Quakers, is, instead, eminently a city of young men, active thriving, industrious; pushing industrial and business enterprise in every direction, and deeply interested in whatever concerns the welfare of labor. They give the best possible encouragement to the introduction and building up in their midst of every available and profitable branch of manufacture. Their whole system of land sales is based upon this, as the land is rated at the annual ground rent which is the interest, merely on its worth, and which the purchaser can have for all time by the payment of this rent with the right whenever he chooses to remove it by paying the principal of which the annual rent is the interest at six per cent. This affords men an opportunity to erect their manufactories, their shops and houses without drawing upon their capital to pay for land.

The effect of this policy of giving encouragement to labor and of aiding men in their industrial enterprises, gives a marked and pleasing appearance to life in Philadelphia, and admirably mixes and mingles the industries of youthful business with the noble public Institutions founded by great wealth and greatly advanced civilization. Labor and capital have sat down together, and the young families engaged in labor and business fill up the noble school houses which the wealth of the city has erected and ornamented.

With a people situated as the people of Pennsylvania are, nothing but, indeed can lead them to support a political ticket opposed to a tariff for protection. There is now no chance for a cheat. The platforms are laid down, and may easily be understood by all.—Indeed there has not been a time for ten years past, when if this question of a protective tariff had been presented fairly to the people of Pennsylvania for a vote, irrespective of party, when they would not have gone for it. The true policy and the permanent policy of this country must be that of supplying ourselves with all articles which our own industry can produce out of the raw materials furnished by nature and to the fabrication of which the genius and skill of our people are adapted. This is felt and realized in Pennsylvania, and the people of that great State in connection with those who desire to see protection to American labor established on a permanent basis, and those who desire to see a liberal and judicious system of internal improvements countenanced by the Government, will vote for Scott and Graham as the best means of securing these desired results. A decisive Presidential victory, placing Gen. Scott in the Presidential chair, would do much to reassure Whig Houses of Representatives and along with it the establishment of such legislation as the best interests of the country require. Pennsylvania will do her part in this great work, and split up the Administration majority for Scott, Graham and the adequate and just protection of the labor of the country.

A recent visit to Pennsylvania has given us an insight into the policy of the State, and the pursuits of the people and we cannot arrive at any other conclusion than that the vote of this State is here for the nominees of the Whig Convention. This for their interest to do so. Patriotism and policy both demand it. It is exactly in the line of their home policy and pursuits. It would be suicidal for them to do differently.

☞ The National Intelligencer publishes a manifesto signed by Hon. Messrs. Alexander H. Stephens, R. Thomas, and James Johnson, of Georgia, Charles James Faulkner, of Virginia; W. Brooke, of Mississippi; and Alexander White, and James Abercrombie of Alabama—members of Congress—in which they decline to support General Scott for the Presidency, as he now stands before the American people. The reasons they give for this course, ord, that he obstinately refused up to the time of his nomination, to give any public opinion in favor of the compromise, that his acceptance in his letter of acceptance approves the resolutions of the Convention, but merely accepts the nomination with the resolutions annexed. The only pledge and guaranty he offers for his adherence to the principles of the resolutions are "the known incidents of a long public life," &c. Among these "known incidents" the letters say there is not one in favor of the principles of the Compromise. Another reason given by the bolters is that in the Convention that conferred this nomination upon him he permitted himself to be used by the Free Soilers in that body to defeat Mr. Fillmore and Webster, because of their advocacy of these measures and their firm adherence to the policy that sustained them.

Grand, Musical and Dramatic Jubilee—Benefit to William B. Esplin at City Hall—The Bangor Brass Band volunteered.

It is with pleasure that we announce to our readers that the numerous friends of Mr. Esplin, who has so long and satisfactorily managed affairs at City Hall, intend giving him a benefit this evening, and it is expected that the occasion will be enjoyed by the ladies to give him one of the finest houses of the season. Independent of the many claims to support, by the *beneficiaries*, he has provided a uncommonly attractive bill of fare, consisting of the beautiful drama of *La Fille Du Regiment*, a new comic of called "Ladies Beware" and the celebrated nautical drama of "Black Eyed Susan," interspersed with many songs and a great variety of dances by different members of the company. To lend an additional feature to the evening the Bangor Brass Band will play, discoursing excellent music, overtures, waltzes, polkas and quicksteps. This is certainly a combined attraction, and all that go will surely obtain their money's worth, and reward the efforts of Mr. Esplin, who leaves with us a good name for cake and attention to business, uniting in his efforts to please, and honest in fulfilling the contracts with all who deal with him. Z.

☞ A destructive fire broke out in Manchester, N. H., at eleven o'clock on Tuesday night, burning tenements occupied by fifty families, and also a stretch mill, where were manufactured by different companies sashes, doors, spokes and axes, and in which were machines for turning, planing, &c., and connected with which was a large bathing establishment. Total loss about $45,000; insured for about 12,000. Wm C Stone, watchman in the steam mill, was shocking ly burned before he could get out of the building. His recovery is doubtful. The fire lasted about three hours. Heaviest loss that of Baldwin, Gould & Co.

☞ Strong party feeling in St. Johns, New Foundland. At the last advices, General Le Marchant had prorogued the Legislature with insulting and unlimited speeches, which excited the sneers and derision of the audience. The press, with but regard to creed or politics manifests great indignation. His Excellency's effigy was carried hanging by the neck through the streets by the populace, accompanied by a drummer and fifer, playing the dead march. His Excellency is promoted to the Government.

☞ The Ohio, for New York on Monday took out eight companies of the 4th Regiment U. S. Infantry. They will stop at San Diego to receive orders from the commander of the Pacific Division, and will then debark, should their services be required in the Southern section of the country, otherwise they will proceed to Benicia. Two other companies are to leave on the steamship Fredonia, to go round the Horn.

We understand that the Free Convention at Exeter, yesterday, will nominate a candidate for Congress.

☞ The Mercury states that the Department at Washington have accepted the proposal of D. B. Hinckley and others for building the foundation for a Custom House in this city. The price is $54,240.

☞ Various parts of the country are suffering from drought. New Jersey and Long Island have been particularly damaged. Grain, grass, fruit trees and shrubbery are parched and shrivelled.

☞ The Middletown (Conn.) News and Advertiser, hitherto, published as a neutral paper, raises the Scott and Graham flag and promises to do excellent service in the great campaign. It is an able and efficient paper.

☞ Hon. M. P. Gentry has published a card in the Republic, denying that the President offered him the place of Secretary of the Navy.

☞ The Steamer Governor Reid has been thoroughly repaired and arrived here yesterday on her regular trip between Portland and this city.

☞ The North Carolina papers state that the crops are being seriously injured by the prevailing drought.

☞ Reports from Columbia, Ohio, state that the cholera prevails there. Five or six fatal cases a day occurred.

CONGRESS.

WASHINGTON, July 6.

Senate. Mr. Clemens gave notice of a joint resolution to provide for the election of a public printer, and to fix the prices for Congressional printing.

A resolution offered by Mr. Miller, to refer to a select committee the charges filed against the commissioner to run the Mexican boundary line, was taken up.

Mr. Weller commenced reading a speech in reply to charges made against him while Boundary Commissioner, in a debate which took place in the Senate two years ago, on Bradbury's resolution, concerning removals from office.

Mr. Clark of Rhode Island, wished to say something in defence of the present commissioner, Mr. Bartlett, who, he would say, had conducted himself with credit and honor. Mr. Rusk said he understood the initial point of the boundary had been changed since it was fixed by the treaty of Hidalgo Guadaloupe, and until he had further information he would not vote a dollar for the further prosecution of the commission. The subject was finally postponed until Thursday next. After some further unimportant business the Senate adjourned.

House. On motion of Mr. Houston, resolved, that until other wise ordered, the daily hour of meeting shall be 11 o'clock.

Mr. Houston offered a resolution, that all debate on the Senate amendments to the deficiency bill, shall cease to-morrow at noon. Passed.

The House proceeded to the consideration of the bill granting the right of way and lands to Alabama, Ohio & the construction of a Rail Road in that State from Dixie to Mobile Bay.

Mr. Jones, of Tenn., moved to lay the bill on the table. Carried—yeas 80, nays 67.

Mr. Olds, from the committee on Post Offices and Post roads, reported, with amendments, a bill to modify the rates of postage, and its consideration was postponed to Thursday.

The House went into Committee on the Senate's amendment on the deficiency bill, appropriating $30,000 for running the boundary line between the United States and Mexico.

The amendment was opposed by Mr. Howard of Texas, who said that Mr. Bartlett, Commissioner, had departed from the plain provisions of the treaty, and surrendered to Mexico 9,630 square miles. Mr. Howard closed by advocating the Collins amendment of the Senate.

Mr Chandler of Tennessee, also advocated the Collins amendment.

Mr Stanton of Ohio, referred to the pronunciamento of gentlemen on this floor, which happened in the morning papers, and who refused to support Scott for the Presidency. He did not expect them to support the Whig nomination, and it was well for them to understand now that the great Whig party is not swallowed up in the Union party of Georgia, Alabama and Mississippi.—The speech of Mr. Toombs and his compeers would gain for General Scott 20,000 votes which he would not otherwise receive in New York and Ohio. He then opposed the Collins line amendment. Messrs. Carter of Ohio, and Evans advocated the Collins amendment, and Mr. Venable opposed it.

Adjourned.

WASHINGTON, July 7.

Senate. Mr. Atchison presented a petition from Missouri in favor of the organization of a government for Nebraska Territory.

Mr Chase, presented petitions in favor of making the Wheeling Bridge a post route.

Mr. Clemens introduced a joint resolution, providing for the election of a public printer and to fix the prices of printing. Referred to the committee on printing.

Mr Shields reported back the House bill for the better protection of the territories of Oregon and Utah.

House. The House resumed the consideration of the joint resolution of the Senate, authorizing the Postmaster General, at his discretion, to declare plank roads post routes.

This was amended, on the motion of Mr. Bennett, declaring the road from Vallona Springs, N. Y., by way of Norwich and Coventry to Oxford, a post route; and also the road from Oxford by way of Coventryville to South Bainbridge.

Mr Stewart offered an amendment declaring all Railways post routes. Disagreed to, after a debate, and the resolution was passed.

Among the executive communications laid before the House was one giving the estimates of the War Department for the survey of a route from the Mississippi to the Pacific ocean, and recommending that an appropriation be made at once. Referred to the Committee on Ways and Means.

The House went into Committee on the monuments to the Deficiency Bill.

☞ The Savannah Georgian, (Dem.) states its belief that the "great majority of the Whigs of Georgia will go with Messrs. Dawson and Grantland for General Scott" and says that the effect of a third electoral ticket, as proposed by the Union party, may be to draw off ten or twelve thousand Democrats from the support of their ticket, and secure the vote of Georgia for Scott and Graham.

☞ The Steamer Eastern State will make an excursion to Castine on Monday next, thus affording our citizens, during the school vacation, an opportunity to take all the little folks, and the great folks, on a pleasant excursion to salt water, view the ancient town of Castine, see the beautiful islands and breathe the fresh air. It will be a charming affair.

☞ Sickness is on the increase in St. Louis. The number of deaths for the week ending on the 26th ult. was 200. Among the deaths announced by cholera is that of Christian Hays, an extensive cattle dealer, who was well known throughout the Mississippi Valley. He was a German by birth.

☞ The census of France, of 1851, gives one curious result. The number of women is greater than that of men. The difference is extraordinary being nearly a million and a half. In Paris, the difference is on the other side, there being twenty-five thousand more men than women.

☞ We learn that an Irishman named Flanigan, was struck by lightning yesterday, on Court-street, and instantly killed. He was about 30 years of age.

☞ In the U S Circuit Court at Boston, on Wednesday, Judge Sprague refused to allow Walter Hunt, of New York, to testify, on the ground that he was an atheist.

WASHINGTON, July 7.

The report of the recall of the French Minister is contradicted.

Ex-Senator Chambers of Maryland has been offered the Navyship.

Attorney General Crittenden it is said, will go to England in the place of Mr. Lawrence.

We understand that the advance in price on boots and shoes for the past two months has been about twenty per cent., and consequently the profits to some of the wholesale dealers in Pearl street, who were fortunate enough to have large stocks on hand has been very great. One house estimates that their stock on hand and manufactured for the season will realize, within the period mentioned, $50,000 — nothing forces estimates its profits over the advance at $40,000.—Boston Traveler.

William Burbank.

We published a few weeks since the brief notice of the death of William Burbank, a citizen of Chelsea, Mass. He was a Bangor boy, was educated at our city High School, and was always public spirited, truthful and persevering. The two maple trees in front of the school house were brought upon his shoulder from the woods and by him planted. We knew him well as one of the active and reliable boys of the city, and we have rejoiced in his progress and his success.

The following tribute to his memory we find in the Chelsea Telegraph, and copy for the gratification of his numerous friends at this vicinity:

Died in Boston, on the 5th inst., William Burbank, of Chelsea, aged 33 years.

It is impossible to allow the demise of this excellent young man to pass away without a brief notice of the deep sorrow which fills our hearts, at no longer being able to recognize him amongst the living. Few persons have endeared themselves more to all classes of the community, and have left so many tokens of abiding friendship in so short a sojourn in our village, than the deceased has done; and which now calls up so profound a sympathy for his memory. With wonderful self control, he united a reserved mien and a kind and friendly spirit, which ever made him pleasant and agreeable to those who knew him. He has always taken a part in whatever concerned the welfare of Chelsea. He was one of the first who, a few years since, instituted the Library Association for the moral and intellectual improvement of its members, and with the same interesting efforts he has contributed much in collecting together such an extensive library in that institution, and which conduces so much to the elevation and instruction of our citizens. He was energetic in politics, but eschewed all bitterness, which sometimes embroils politicians in unkind feelings towards each other. Withal, while he avowed his own preferences, he allowed others to be guided by their own conviction of duty. It is supposed that during the cold spell last fall he caught the severe cold which has accelerated the insidious disease which led to so soon called him from the stage of action and deprived us of his judicious counsel and zealous support.

While he thus sought to act in his influence in promoting the secular concerns of the town, he knew another field of action which was dearer to his feelings and in which he allowed his light to shine forth so brilliantly that they who saw his good works might take glory to that who had been with Jesus. Some six or seven years ago he united himself to the Baptist church of this village, and has been ever since a devout and active member of that communion. He has labored zealously in extending the Master's kingdom, and many will remember his hearty appeals and fervent prayers for the Israel of God. He was also to be found at the post of duty in the Sabbath School, and that his influence was felt in instructing the youth in those principles of eternal truth which will be a talisman in after life in directing their feet in the paths of virtue, and procure for them a habitation of bliss in Heaven.

In consequence of the continued unpropitious state of the spring weather, he was advised to take a trip to the South, in hopes that a more congenial and balmy atmosphere would enable him to recover from the insidious disease which was making such sad inroads upon an usually fine constitution; but although the first fortnight or more of the most pleasing results, yet at length, a cold soon baffled all his cherished hopes, and he was only enabled to arrive in Boston to die in the arms of his kindred and in the midst of dear and sympathising friends.

Thus has been taken away from us, in the flower of his youth and the flattering prospect of a long life of usefulness, one who had just entered upon his busy scenes, and settled himself down to the endearing ties of domestic life—a loving wife, and one most sanguine of the parents clothed with sorrow; but such are the inscrutable ways of Providence, and it becomes us to bow in meek submission to His Divine will, and mourn the death of all things well." But there are those still left, who with lacerated hearts will mourn the loss of a devoted husband, affectionate parent, and an affectionate father. Those left them we deeply sympathize in the bitterness of affliction, and while clouds and darkness thus envelope their hopes, may we comfort the widow and the fatherless and point them their distress and give them grace to support under the burthen of their sorrow and bereavement. He has so mysteriously taken away a shining light, yet He speaks in admonitory language to us, to be also ready, for we know not the day nor the hour when the son of man cometh.

Bangor, June 16, 1852.

Funeral Honors to Mr Clay in New York.

NEW YORK, July 6.

After some delay, occasioned by the high wind when approaching Castle Garden, Mr. Clay's remains were taken ashore by the military, six in number, as follows:—Senator Underwood, Chairman of the Committee; Gen. Cass, of Michigan; Gov. Jones, of Tennessee; Gen. Houston, of Texas, Commodore Stockton, of New Jersey; Gov. Fish, of New York. Among the mourners were Mr. Clay's eldest son, Henry Clay, Jr., now a cadet at West Point, son of Mr. Clay, who fell at the battle of Buena Vista, and grandson of Henry Clay. They were attended by the Kentucky delegation, consisting of General Combs and Messrs. White, McCann and Williams.

The remains of Mr. Clay were escorted from the Battery directly to the City Hall, by the military and civic associations participating in the procession. Notwithstanding the immense throng of persons who had congregated on the line of the route, a profound silence was maintained, uninterrupted only by the firing of minute guns, the tolling of bells and solemn strains of martial music. The hearse was drawn by eight horses, in sable drapery. Dwellings and public buildings were often shrouded in the insignia of mourning, and business, in the lower part of the city, was almost universally suspended.

The cortege was followed to the City Hall by many hundred citizens, who united irrespective of party distinctions, to honor the remains of the departed. The spectacle was solemn and impressive, and evinced the universal feeling of grief and sympathy that pervaded the hearts of all.

It is understood that Mr. Clay's remains will depart for their final resting-place in Kentucky, at an early hour this morning. They were visited during the day, yesterday, by a large number of citizens. The face was not uncovered, the friends objecting to the last decomposition, during the prevailing warm weather, should be hastened. The corps was guarded during the day by the Washington Greys and members of the Clay Festival Association.

The Committee expect to leave New York, for Albany, this morning, and on Tuesday morning to take the Express Train, so as to reach Buffalo in the evening.—New York Journal of Commerce.

☞ The grand reception of Mr. Webster by his Boston friends, and those in the vicinity, take place on Boston Common this afternoon at five o'clock. It will be a noble and generous reception, worthy of the great man it is intended to honor and comfort, and worthy of the devotion of the solid men of Boston.

☞ The Maine American Convention has nominated Daniel Webster for President, and George L. Washington of Va., for Vice President.

Why Kate Cottier is Out.

Correspondence of the New York Express.

CINCINNATI, July 29.

With the exception of the firing of cannon on the announcement of the nomination of Scott and Graham, the first public demonstration in this city, came off last evening in the shape of a Ratification meeting. The place of meeting was the Sixth street Market space. At an early hour an immense concourse had assembled. At 8 o'clock, the meeting was organized by the appointment of E. D. Mansfield, Chairman, 18 Vice Presidents, and three Secretaries. The Chairman was first called on, who made a very happy effort, reviewing the long public services of General Scott. He alluded to the facts that drew from Dr. Channing the remark—"Winfield Scott is worthy of the highest honors of the Christian world."

A. S. Sullivan, Esq., was next called for and responded in a very felicitous style.

Democrat who enquired, "who will lead you with this battle cry?" he would reply, as did Whig in the campaign of '40. "Every mountain will send forth its rivulet; every valley its river, and lo! the people—they are to be our leaders!"

Gov. Morehead of Kentucky, was then called for, who said with many other good things, that although Millard Fillmore was his first choice, he cheerfully acquiesced in the nomination of Gen. Scott, and regarded his election as fixed fact." He introduced a Mr. Carlton of Kentucky, who made a most acceptable speech, during which he assured the audience they could rely on 20,000 majority for the hero of Lundy's Lane. Mr. Gibbons, on Tuesday next addressed the meeting with great earnestness and effect. He referred to the imprisonment of Gen. Scott in behalf of his country and of those who were taken prisoners in the last war, and who were about to be shot by the British, and of his securing to the conquered people of Mexico the rights of property and of worship. A series of resolutions, were then adopted with great applause. In seconding the resolutions Mr. F. I. Chambers remarked, that had Buchanan he had preferred the nomination of other men, he should heartily support the nominee.

The meeting was also addressed by Mr. David Faber of this city. All of the speeches were received with great enthusiasm, reminding one of the gatherings of 1840. It was found impossible that even half the people could hear from one stand and a second one was prepared from which several gentlemen were speaking while the speaking proceeded from the other stand. As with you many Whigs would have preferred Mr. Fillmore or Mr. Webster, yet, as good Whigs they were ready to give battle for the Hero of Chippewa.

The proceedings were preceded by an appropriate display of fireworks and the firing of cannon.

GREAT ATTRACTION!

—AT—

MARKET HALL!

THE

Great Historical Mirror

—OF—

AMERICA

Will open at Market Hall on MONDAY EVENING, July 12th, for a few days only.

THIS Painting is without doubt the greatest work of Art ever exhibited in this Country being painted on nearly 20,000 square feet of Canvass at an expense of upwards of $15,000. It represents the principal events in the History of our Country for a space of about 400 years, extending from the landing of Columbus in 1492 to the battle of New Orleans in 1815; embracing as it does a greater variety of scenes than any other subject that could be presented—giving a correct history of our country from its settlement "a feeble colony" to its present position "occupying the highest pinnacle of National Glory."

The Proprietor feels confident in saying an evening cannot be more profitably and pleasantly spent, than in acquiring a correct knowledge of our Country's History.

Musical Director—Prof. Lamont.
Delineator—Dr. A. J. Thompson, of N. Orleans

Pictorial Geography OF THE WORLD!

By S. G. Goodrich, assisted by literary gentlemen from abroad.

ITS size is super royal, 8vo., and consists of 1000 pages, and more than 1000 engravings, remonetically presented, so as to fix in the mind facts that not only illustrate but distinguish geographical locations, containing a vast amount of various and important intelligence, embracing a popular and scientific system of modern Geography.

It is extremely useful to the young, being illustrative as a text book of descriptive geography, and interesting as a novel to read. It includes recent discoveries in all quarters of the Globe, with copious statistical and commercial tables, derived from the highest European and American sources, embracing authentic information in every department connected with the subject, and it will be found to be more full and complete, than any Geography yet published in the United States. This work is continued, and a supplementary volume will be issued when the census and statistics now printing by Congress, shall be completed. As this supplementary volume will be furnished to all who desire it, it will give a permanent value to this work which attaches to no other work of the kind.

This above work, in consequence of its costliness, is entirely excluded from the trade. The Agent therefore, will call upon the families and individuals and furnish the book to those who want it.

Lesage's Specific,
NEVER *failing remedy for thoroughly eradicating diseases of the Urinary Organs*, such as Gonorrhœa, Gleets, Whites, Strictures, Stone in the Bladder, &c., and needs but to be once used to be universally esteemed. The proprietor would respectfully caution those troubled with the above disgusting complaints to beware of those sure-to-expose, which unprincipled individuals, without the least knowledge of the structure of the human system, recommend for every disease. Lesage's Specific is only intended for the cure of Private Diseases, and the thousands that have sent their unsolicited certificates vouch for its efficacy, while a better it is known the greater is the demand. How different from the various quack medicines which, when the unhappy patient has once parted with his money, can never make fry again. Lesage's Specific has been the remedy depended on by every class, the senator, the lawyer, the statesman, the seaman and the planter, daughing on its use and tried it and found it truly the good Samaritan in the hour of trouble!
Dr. Darby annexes extracts from some of his certificates:
U. S. Frigate Cumberland, 1851. I contracted disease at Naples, and tried all the remedies suggested by the most experienced Surgeons without success. Lesage's Specific has restored to me the health I long despaired of.—J. W. W.
Louisville, Ky.—I have much pleasure in stating that Lesage's Specific has cured me of a gleet of 6 months duration.—H. C. D.
Bangor, Me.—After having used two bottles I found myself cured of an old standing complaint in six days, and shall not fail to recommend you should I know of any troubled as I was.—J. Brown.

25,000 Sold per Year!
The Unsurpassed and Unsurpassable
Bay State Stove,
OF SIX SIZES, of heavy and smooth castings—price from $15 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c., &c., for durability and economy—may be had, as heretofore, at the well known and long established
Stove, Furnace and Range DEPOT,
Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OF
N. JOHNSON,
Who is SOLE Agent, and always has them for sale market, for the sale of the celebrated Stove at the name, of which 25,000 were sold the past year, and of which some 3,000 will not be more than sufficient to supply the demand the present year.
The BAY STATE is sold as warranted as usual. Returned after an absence of one year from California, the price paid will be refunded, together with interest and cost of returning.
Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, or to wait in Bangor for them. As I HAVE THEM ON HAND!
A CHALLENGE of $50
Is now off, that 50 stoves of six sizes, of any other pattern to the BAY STATE, for which I am sole Agent, cannot be produced which will compare with the BAY STATE, for fine finish and smoothness of castings, or for fuel and economy of baking, taking the longest or shortest time.
I would also call attention to the fact that I am sole proprietor of the
Bangor Air-Tight COOKING STOVE,
which is acknowledged by all who have used it to be the best Cooking Stove ever invented, and which will be sold at the lowest prices.

SHERBET OF SHIRAS,
The Oriental Beverage.
THE SHERBET of SHIRAS is unrivalled in its luscious and delicacy of flavor—imparting to the mirror as soon as agreeable cooling liquor. Its ingredients are all Vegetable, and were discovered before used in the manufacture of any other beverage. It combines all the agreeable qualities of a cooling refreshing beverage, with the imparting and nourishing properties of London Porter.—The most delicate female can partake of it and only with impunity, but may experience a most agreeable and salutary adjunct—the only exhilerating drink allowed by the Mahommedan laws, under which all wines and spirituous liquors are prohibited.

Bangor Air-Tight COOKING STOVE
THE best Cook Stove ever introduced to this or any other people.
Having secured the sole agency of this very desirable Stove I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market by those experienced and efficient Stove manufacturers Messrs Eastes & Whittier, who know, and have appreciated the wants of this particular people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking or Roasting will at once recommend itself to the Ladies. One very important feature is, it has very strong and smooth castings, and being manufactured on the county can at all times be repaired, if ever necessary, at a trifling expense without subjecting you to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.
—ALSO—
A great variety of other patterns of cooking Stoves, such as the
Our State, Bay State, Empire State, Granite State, State of Maine, &c.,
All or any of which will be sold at extremely low prices.
Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two oven Stoves, Forest-Queen, &c.—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot, Nos 16, 17, and 18
